

ITALY at KIDSCREEN SUMMIT

February 9 to 12, 2025 | San Diego

The Italian delegation at Kidscreen 2025, including 11 companies, is organized by ITA - Italian Trade Agency.

ITA is the Governmental agency that supports the business development of Italian companies abroad and promotes the attraction of foreign investment in Italy. With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotions and training to Italian small and medium-sized businesses. Focusing on the most up-to-date communication and marketing tools, ITA promotes the excellence of the Made in Italy in the world.

The ITA Audiovisual office headquartered in Rome focuses on: promoting the internationalization of the Italian audiovisual industry; supporting the Italian Film Commissions in attracting films and TV inward investments, promoting Italy as a film making destination; fostering co-production projects by helping to connect Italian film makers (producers, writers, directors) with international counterparts.

The ITA Creative Industries Team in the Los Angeles office assists Italian companies in the entertainment sector on the American market, in providing support for their marketing activities, and partnership search for co-productions. Furthermore, the Team helps American production companies in navigating the different legislations to access Italian tax credits, in cooperation with regional Film Commissions and local executive producers.

In addition to the above mentioned activities, the Los Angeles office manages and updates the website "Italy meets Hollywood" with the related Newsletter, entirely devoted to the US audiovisual market.

The website is conceived as a bridge where the American and Italian audiovisual industries meet to stay informed, to share knowledge and to develop business partnerships together.

MESSAGE FROM THE ITALIAN TRADE COMMISSIONER

Dear Kidscreen Attendees,

Italy is back at the 2025 edition of Kidscreen Summit, for its second year in San Diego, and I am glad to introduce our Italian delegation, coordinated by the Italian Trade Agency (ITA). This year we are bringing together 11 companies including producers and distributors, representing the best of the Italian children's animation industry with a wide offer in terms of diversity of content, from movies to TV series.

The Italian entertainment industry has been recently experiencing a real Renaissance and has increased its competitiveness in terms of quality and execution. According to the 2024 ANICA (National Association of Cinema and Audiovisual Industries) report - 402 films were produced in Italy in 2023 (+13% on 2022), an increase on pre-pandemic numbers (+23,7% on 2019), and 248 audiovisual works (for TV and internet) were produced in 2023, more than double the amount produced in 2019. The children's animation sector in Italy includes around 6.000 employees (with 60% being under 35 years old) and an annual turnover of over 200 million euros. A large portion of this turnover is due to co-production agreements with international partners.

For all these reasons, it is now a great moment to partner with Italian companies. If you are interested in connecting with the Italian delegation, have a look at our catalog and do not miss our Booth at the Delegate Lounge. Our staff is available to assist you about our activities and services.

For any additional information, follow us on our website www.italymeetshollywood.com or subscribe to our Newsletter.

Wishing you all an amazing experience at **Kidscreen Summit 2025**,
my warmest regards,

Giosafat Riganò
Italian Trade Commissioner
ITA Los Angeles Office
